

# 'Isotonic' One Metre.

Extensive redesign of original 'Tonic' with significantly better limit top suit performance and kinder handling, plus improved performance in other conditions. This has been achieved by a new skiff style deck moulding, new fin and mast trunking, new rudder and re-engineering of all mouldings in epoxy / cloth laminate to reduce weight, increase stiffness and lower C.G.

The fin has a new epoxy / carbon construction to greatly improve the stiffness and torsional rigidity plus a new bulb with lower C.G.

Basic hull kit : Hull fitted with fin and mast trunking, rudder tube, shroud eyes and  
£480.00 internal bracing.

Deck with pot opening, winch / servo cutout, mast hole cutout, jib attachment and sheet eyes and mast ram fitted .

Moulded servo / winch tray.

Carbon fin and rudder.

Opaque Silicon rubber bumper.

Note: All mouldings in clear epoxy.

Hull fittings : £ 30.00

Lead ballast – finish as cast : £ 20.00

Deluxe Rig Kit (from Housemartin sails) £ 190.00

Postage & packing extra.

All prices are provisional and may be subject to change.
